

# FINANCIAL BACK-OFFICE SERVICES

*Integrated Outsourcing Services Covering Financial Transactions, Accounting and Payroll*

## FINANCIAL BACK-OFFICE SERVICES

### ASA FBS

An integrated solution....

When your organization experience higher-than usual rates of errors and issues, or when you experience high turnover of the personnel that handle your back-office functions, or when you are thinking of expanding your business and you feel like your valuable personnel should spend more time on the business rather than on handling clerical and repetitive transactions, come to us and try ASA Financial Back-office Services.

**ASA FBS is an integrated solution from PT ASA Indonesia that cover accounting outsourcing, tax compliance outsourcing and financial transaction outsourcing. The financial transactions outsourcing covers operational expenditures (OPEX), capital expenditures (CAPEX), receivables, payables, etc, or any other financial transactions.**

## ASA FBS

*Your alternative way that allows you to focus on your business*

ASA FBS is an integrated solution from PT ASA Indonesia that cover accounting outsourcing, tax compliance outsourcing and financial transaction outsourcing. The financial transactions outsourcing may cover any transactions that you wish us to handle, including operational expenditures (OPEX), capital expenditures (CAPEX), receivables, payables, or any other financial transactions.

ASA FBS system handles capturing of transaction documents, processing of transaction in accordance with your work flow policies, communication between ASA and your company, and reporting the performance of your operations on time.

Here's how it works:

-  Capture your documents in a dedicated virtual place.
-  Communicate and process with the help of the system
-  Find your reports in a restricted virtual place

IndoPayroll is our end-to-end services relating to payroll. We will take care of all aspects that your company need to do relating to payroll, including computations, taxation and BPJS. We will also take care everything related to deductions from your employees' salary.

With our technology, the handling of the financial transactions works perfectly with accounting and payroll as if they are all handled in-house.

We will also help you to utilize the accounting software that you use now up to its maximum potential, as long as they will give benefits for you in terms of efficiency, speed and fulfilling your objectives.
